CAREER OBJECTIVE

Fourth-year Bachelor of Science in Information Technology student at Bukidnon State University with hands-on experience in software development, AI integration, and digital solutions through academic and project-based work. Developed an IoT-based computer vision system and a cross-platform personal finance application, demonstrating proficiency in programming, database management, and practical problem-solving. Also possesses project-based experience in copywriting, scriptwriting, email marketing, and technical documentation. Eager to leverage technical knowledge, creative skills, and an interest in AI-driven solutions to support business operations, digital marketing initiatives, and workflow optimization. Currently seeking to fulfill a 490-hour On-the-Job Training (OJT) requirement at Infinity Hub Digital Marketing.

KEY SKILLS

- Web & Mobile Development
- Machine Learning
- AI & Computer Vision
- Database Management
- Data Analysis & Dashboards
- Technical Documentation
- Communication Skills
- Adaptability
- Time Management

TECHNICAL PROJECTS

IoT-Based Smart School-Zone Crosswalk Alert System

- Designed and developed an IoT-based crosswalk alert prototype using YOLOv8 and OpenCV to detect child pedestrians within designated school-zone areas, with tracking and temporal filtering for more stable detection.
- Built a Flask-based monitoring dashboard with role-based access, live video streaming, traffic analytics, and real-time telemetry; integrated an ESP32 microcontroller to activate warning light indicator.
- Collected, annotated, cleaned, and prepared CCTV image datasets for model training and evaluation.

PocketBuddy — AI Assisted Personal Finance Application

- Developed a cross-platform personal finance application using React Native and Expo, with income and expense tracking, transaction categorization, search, filtering, calendar history, and financial dashboards.
- Integrated Google Gemini AI to analyze recent financial activity and generate budgeting suggestions, extending the app beyond basic transaction management.
- Implemented Supabase authentication, PostgreSQL data storage, cloud synchronization, Row Level Security, and Edge Functions to support secure and organized application workflows.

Ekklesia — Church Discipleship Tracker

- Designed a multi-tenant SaaS architecture using Laravel 12 and Stancl/Tenancy, with a central administration platform and independently provisioned church workspaces using database-per-tenant isolation and custom subdomains.
- Developed the platform's church onboarding and tenant management architecture, including automated database provisioning, migrations, role setup, and configurable church branding.
- Designed core modules for discipleship progression, curriculum and lesson management, attendance, devotional tracking, role-based access control, and subscription-based feature limits.

RELEVANT EXPERIENCE

Copywriting, Scriptwriting, and Technical Documentation

- Researched and developed long-form YouTube scripts for content creators, focusing on storytelling, audience engagement, and content structure.
- Practiced copywriting for landing pages and sales pages, including supporting mockup concepts.
- Worked with Enagic affiliate marketing team on technical documentation and Standard Operating Procedures (SOPs).
- Helped document workflows for social media posting, outreach, and networking activities.

Email Marketing — Independent Practice

- Practiced building email signup forms, automated sequences, and campaign workflows using Klaviyo.
- Created sample email marketing flows and campaign for a mock e-commerce wellness brand, focusing on brand messaging, customer engagement, and sales conversion.
- Explored email automation structure, direct-response writing, and customer communication.

EDUCATION

Bukidnon State University **2024 - 2027**

- Bachelor of Science in Information Technology

St. Michael High School of Linabo Inc. **2017 - 2024**

ADDITIONAL SKILLS

Persuasive Writing | Scriptwriting | Digital & Email Marketing | Klaviyo | Video Editing |
